OVERVIEW

Senior Frontend Engineer with 9+ years of experience building scalable React and TypeScript applications across fintech, SaaS, and edtech domains. Specialized in frontend architecture, performance optimization, and developer experience.

EXPERIENCE

Senior Frontend Engineer

Apollo.io

April 2025 - May 2026

Remote, India

- Part of Apollo.io's Core AI Apps team, building and maintaining AI-powered features across the sales engagement platform.
- Single-handedly developed the user experience for AI Sequence Builder and tracked feature adoption using Amplitude Experiments and analytics reports.
- Participated in quarterly planning, product discussions, and architecture reviews by contributing engineering feedback, UX improvements, and technical insights.
- Leveraged modern AI-assisted development workflows using Cursor AI and Claude Code to improve engineering productivity and development efficiency.
- Technologies: **ReactJS, TypeScript, Redux, SCSS, Vitest, Playwright, Amplitude, Cursor AI, Claude Code, Git, CI/CD.**

Senior Software Engineer - Frontend

United Overseas Bank Limited

July 2022 - April 2025

Singapore

- Led Micro Frontend Architecture initiatives for cross-border banking workflows.
- Built scalable transaction flows and reusable frontend modules for investment banking platforms.
- Technologies: **ReactJS, Redux, TypeScript, SCSS, Git, CI/CD.**

Senior Software Engineer - Frontend

BYJU'S

December 2020 - July 2022

Remote, India

- Developed frontend features for BYJU'S live learning platform used by thousands of students.
- Mentored junior engineers and improved frontend performance and scalability.
- Technologies: **ReactJS, JavaScript, SCSS, Material UI, Agora RTC/RTM, Git.**

Front End Engineer

ZOHO Corporation

June 2017 - November 2020

Chennai, India

- Developed frontend tooling and CI/CD platforms supporting multiple Zoho products.
- Improved deployment and testing workflows for Zoho Books.
- Technologies: **EmberJS, VueJS, NodeJS, SCSS, Tailwind, Git.**

SKILLS

ReactJS TypeScript JavaScript
Redux Micro Frontends Cursor AI
Claude Code Playwright Vitest
HTML5 CSS3 SCSS NodeJS
CI/CD Git

PERSONAL PROJECTS

lint-prepush
Node.js CLI tool for running linters on committed files with over **2.3M downloads** on npm.
